PROJECTS

Instagram Clone

- Developed a web application with user authentication, photo sharing, profiles, likes, comments, and a news feed using ReactJS, MongoDB, Node.js, and Express.js.
- Deployed the production build to Vercel. <https://instaagramclone.vercel.app/>

Movieverse

- Build a ReactJS movie application that seamlessly integrates with the TMDB API, allowing users to search, view movie details, and check ratings. Utilize Redux for state management and SCSS for stylish and responsive UI design.
- Implement a trailer feature, enabling users to watch trailers for movies and TV shows within the app.
